

## **Landscape Architect Internships**

The HLA Group, Landscape Architects and Planners is seeking candidates for our internship program. The intern will assist with office operations and spend time working with a team of landscape designers in a dynamic, studio based atmosphere in Midtown Sacramento. Administrative responsibilities include filing project correspondence, maintaining overall office organization and handling the delivery and retrieval of project materials. The intern will also assist the landscape design staff by making revisions to construction documents, preparing water use calculations for planting plans, assisting with irrigation plans, and drafting construction details using AutoCAD. This is a paid internship position with a flexible schedule.
