PWPA

All correspondence must be received via mail by April 6, 2007

Peter Walker and Partners, attn: Kelly Spokus, 739 Allston Way, Berkeley, CA 94710; questions: kellys@pwpla.com

February 2007

Peter Walker and Partners will be selecting a small group of landscape architecture students for summer apprenticeships which will be held from June 11 through August 10, 2007. We require that applicants have at least one year of school left until graduation.

Our internship program is varied, and consists of three main components - project work, design problems, and field and office visits.

1) Project work serves to introduce students to the world of professional practice through involving them in a broad range of office experience, including work on schematic-design drawings and models, design-development research, mock-ups, details, and construction documents.

2) Design problems allow for interns to develop their own responses to projects using the resources available in the office and the critical review of our professional staff.

3) Field trips and office visits around the Bay Area give a cross section of landscape architecture in the real world, offering students first hand experience of local offices and a large selection of built work.

The internship is paid on an hourly basis, however, living arrangements and transportation are not provided and are the responsibility of the students.

Interested students should send the following information to arrive in our office by Friday, April 6, 2007:

- 1. Résumé, including special skills and interests;**
- 2. Hard copy examples of work (only submissions with a self-addressed, stamped envelope will be returned);**
- 3. Three reference names and their contact information.**

Please send all correspondence to : **Peter Walker and Partners
Attn: Kelly Spokus
739 Allston Way
Berkeley, CA 94710**

Sincerely,

PETER WALKER AND PARTNERS
