

Internship Announcement

Student Intern/GIS Specialist/Landscape Architect
Spring and Summer Job Opening

Questa Engineering Corporation of Point Richmond, CA, has an immediate opening for a Student Intern to assist in various environmental projects, including trail planning, habitat restoration, creek restoration, fish passage barrier removal, biotechnical bank stabilization and native plant species management.

Position is available immediately, part-time, full time in summer. Lots of interesting projects!

Position requires strong GIS skills in preparing maps and working with databases. Upper division or graduate students with background in Landscape Architecture, Environmental Studies, Geography or related fields such as Biology (fisheries or stream restoration emphasis), Civil Engineering/Hydrology, or Geology-Geomorphology may send resume to:
